

This diagram illustrates the exploded view of a rear suspension assembly. The components are numbered as follows:

- 1**: A long, curved metal beam or axle.
- 2**: A small cylindrical pin or bush.
- 3**: A small circular washer or spacer.
- 4**: A small cylindrical pin or bush.
- 5**: A coiled spring with a hook at one end.
- 6**: A coiled spring with a hook at one end.
- 7**: A complex metal bracket or housing.
- 8**: A long, threaded bolt.
- 9**: A metal bracket or arm with a hook at one end.
- 10**: A coiled spring with a hook at one end.
- 11**: A small cylindrical pin or bush.

The diagram shows how these parts are assembled into a rear suspension system. The main beam (1) is connected to a bracket (7) via a pin (2) and a washer (3). A bolt (8) is used to secure the assembly. Springs (5, 6, 10) are attached to the beam and the bracket. A small pin (11) is also shown near the bracket (7).
